Committee Members,

I strongly support House Bill 5712 to allow Fusion Voting. Here's why:

- Voters will be able to choose the party that best aligns with their values
- Minor parties could have more of a role and bring more voters in
- Cross-ideological coalitions can stand together
- Potential to re-engage voters who disagree with the two party system

Let's give voters a little more of a voice to demonstrate their values.

Thank you,
