Subject: Support of H5706

As an avid sailor on Narragansett Bay and a 2004 Olympian (Sailing), I urge you to pass H5706 and replace the Coastal Resources Management Council with the Department of Coastal Resources. I fully agree with AG Neronha (also a Jamestown resident) that we need "to modernize what has become an amateurish and sometimes slapstick approach to protecting our coastal resources."

Narragansett Bay is why I chose RI as my home 30 years ago, and a major reason for why I continue to love where I live. Please do your part to make sure it will continue to draw sailors and water lovers to our state by passing H5706.

Thank you.
