**To:** Constitutional Convention Commission  
**Subject:** No constitutional convention, please

I am a decades-long Rhode Island voter who has lived in Providence since the early 1980s. I witnessed the mischief churned by special-interest groups with deep pockets from outside the state in the last constitutional convention. To call another in the current political climate will present another opportunity for a take-over attempt by these freedom-haters. Please vote no constitutional convention. RI can't afford it.
