MEMORANDUM

To: The Honorable Marvin L. Abney
 Chairman, House Finance Committee

The Honorable Daniel DaPonte
 Chairman, Senate Finance Committee

From: Thomas A. Mullaney *Thomas A. Mullaney*
 Executive Director/State Budget Officer

Date: February 14, 2017

Subject: Amendments to Article 7 and Article 22 of the FY 2018 Appropriations Act
 (17-H-5175)

The Governor requests that the original Article 7 entitled "Relating to State Funds" be replaced with the attached version. The new version adds three new sections to Article 7, renumbers all sections following the new sections, and makes a couple of technical corrections to the article. The first new section being added is 39-26.6-4, which is part of Chapter 39-26.6 entitled "The Renewable Energy Growth Program." This amendment provides that revenues generated through the rate reconciliation process to finance expenses incurred by the Rhode Island Office of Energy Resources would be transferred to the Office and deposited in a restricted receipt account established within the general fund. This amendment also provides that the new restricted receipt account would be exempted from the indirect cost recovery assessment provisions of 35-4-27.

The second new section being added to Article 7 is 42-28-49.1, which is part of Chapter 42-28 entitled "State Police." This amendment establishes a new restricted receipt account under the State Police for the receipt of reimbursements from non-state entities for which the State Police provide support. In prior years, the State Police have reflected these reimbursements as expenditure credits, thereby understating the true cost of the agency. The creation of this new account will allow both the revenues and expenditures associated with these activities to be reflected in the state budget. Because the revenues deposited into the new account are a direct reimbursement of costs incurred by the State Police, it is recommended that the new account be exempt from the indirect cost recovery assessment.

The third new section being added to Article 7 is 42-75-13, which is part of Chapter 42-75 entitled "Council on the Arts." This amendment strikes language that limits donations from the Rhode Island Foundation to the Rhode Island Council on the Arts being deposited in a restricted receipt account to FY 2010 only. With this amendment, funds given by the Rhode Island Foundation to

the Rhode Island Council on the Arts and deposited in a restricted receipt account will no longer be limited to any particular fiscal year.

The technical corrections made to Article 7 include eliminating the strikeout for the “Forfeited property – Gambling” account, which is on page 140, line 20, and correcting chapter and section number formatting on page 143, lines 25 and 27, and page 144, line 3. Eliminating the exemption from the indirect cost recovery assessment for the Attorney General’s forfeiture account was inadvertent and not an intended change in the Governor’s recommended budget.

The Governor also requests that in Article 22 entitled “Relating to Lead Poisoning Prevention” the reference on page 276, line 34 be changed from 23-24.6-4(13) to 23-24.6-4(14).

If you have any questions regarding these amendments, please feel free to call me or my staff at 222-6300.

SECTION 3. Title 35 of the General Laws entitled “Public Finance” is hereby amended by adding thereto the following chapter:

CHAPTER 35-4.1

PERFORMANCE IMPROVEMENT FUND ACT

35-4.1-1 Legislative findings. – The general assembly finds and recognizes:

(a) The importance of pursuing data-driven approaches to improving service delivery, and that limited state resources should be allocated based on proven results, not inputs or promised successes.

(b) That pay for success contracts provide an opportunity for the state to address the challenges of improving service delivery with limited resources as these contracts both:

(1) Create incentives for improved performance and reduced costs, allow for more rapid learning about which programs work and which do not, and accelerate the adoption of new, more effective solutions, and

(2) Provide a mechanism to bring upfront financial support from the private and nonprofit sectors to innovative social programs that the state only repays if contractual performance targets are achieved, thereby reducing the state's financial risk in supporting innovative initiatives.

35-4.1-2 Definitions. – For the purpose of this chapter:

(a) “Performance targets” means the level of performance, as measured by an independent evaluator, which represent success. Success is defined in the pay for success contract.

(b) “Independent evaluator” means an independent entity selected by the state whose role includes assessing and reporting on the achievement of performance targets at the frequency required in the pay for success contract.

(c) “Success payments” refer to the payments that the state will make only if contractual performance targets are achieved as determined by the independent evaluator and approved by the office of management and budget.

(d) “Pay for success contracts” are contracts designed to improve outcomes and lower costs for contracted government services that are subject to the following requirements:

(1) A determination that the contract will result in significant performance improvements and budgetary savings across all impacted agencies if the performance targets are achieved;

(2) A requirement that a substantial portion of any payment be conditioned on the achievement of specific outcomes based on defined performance targets;

(3) An objective process by which an independent evaluator will determine whether the performance targets have been achieved;

(4) A calculation of the amount and timing of payments that would be earned by the service provider during each year of the agreement if performance targets are achieved as determined by the independent evaluator; and

(5) Payments shall only be made if performance targets are achieved.

35-4.1-3 Creation of the Government Performance Improvement Fund. – (a) There is hereby created and established in the state treasury a fund to be known as the “government performance improvement fund” to which shall be deposited appropriations as may be made from time to time by the general assembly. All money now or hereafter in the government performance improvement fund are hereby dedicated for the purpose of funding pay for success contracts.

(b) By signing the pay for success contract, the authorizing department or agency is confirming that the contract has met the requirements established in this chapter.

(c) The department of administration is charged with the administration of this fund for the purposes specified in this section, and may make payments from the fund only in accordance with the terms and conditions of pay for success contracts and upon approval of the director of the office of management and budget. All claims against the fund shall be examined, audited, and allowed in the manner now or hereafter provided by law for claims against the state.

(d) The department of administration shall provide an annual status report for the prior fiscal year on all contracts not later than December 31 of each year to the house and senate finance committees.

SECTION 4. Section 39-26.6-4 of the General Laws in Chapter 39-26.6 entitled “The Renewable Energy Growth Program” is hereby amended to read as follows:

39-26.6-4 Continuation of board. (a) The distributed generation standard contract board shall remain fully constituted and authorized as provided in chapter 26.2 of title 39; provided, however, that the name shall be changed to the "distributed-generation board". Additional purposes of the board shall be to:

(1) Evaluate and make recommendations to the commission regarding ceiling prices and annual targets, the make-up of renewable-energy classifications eligible under the distributed-generation growth program, the terms of the tariffs, and other duties as set forth in this chapter;

(2) Provide consistent, comprehensive, informed, and publicly accountable involvement by representatives of all interested stakeholders affected by, involved with, or knowledgeable about the

development of distributed-generation projects that are eligible for performance-based incentives under the distributed-generation growth program; and

(3) Monitor and evaluate the effectiveness of the distributed-generation growth program.

(b) The office, in consultation with the board, shall be authorized to hire, or to request the electric-distribution company to hire, the services of qualified consultants to perform ceiling price studies subject to commission approval that shall be granted or denied within sixty (60) days of receipt of such request from the office. The cost of such studies shall be recoverable through the rate-reconciliation provisions of the electric-distribution company set forth in § 39-26.6-25, subject to commission approval. In addition, the office, in consultation with the board, may request the commission to approve other costs incurred by the board, office, or the electric-distribution company to utilize consultants for annual programmatic services or to perform any other studies and reports, subject to the review and approval of the commission, that shall be granted or denied within one hundred twenty (120) days of receipt of such request from the office, and that shall be recoverable through the same reconciliation provisions.

(c) Revenues generated through the rate reconciliation process to finance the expenses incurred as outlined in section (b) shall be transferred to the office and deposited in a restricted receipt account within the general fund. The restricted receipt account shall be exempt from the indirect cost recovery assessment under section 35-4-27.

All proceeds from rental fees for the use of the Eisenhower house and its surrounding grounds shall be deposited into this account and used for reinvestment and maintenance of the facility. The rental fees for the use of Eisenhower house and surrounding grounds shall be established by regulation.
