Dear Honorable Senators,

Please support RI S2179. Permanent Eastern Standard Time is the only federally pre-approved way to ditch the switch, as most voters want to do. It is also the only way that is widely endorsed by advocates for health and safety, including the [American Academy of Sleep Medicine](#) (of which I am a member) among others. This bill wisely coordinates its effective date with neighboring states.

Please support this bill and ditch Daylight Saving Time!

All my best,

Gina M. Mason
