Dear Honorable Senators,

I am a neurologist, living and working in Providence, and I am writing to ask you to please support S 2179 (by Paolino) to adopt permanent standard time. Permanent Eastern Standard Time is the only federally pre-approved way to ditch the switch, as most voters want to do. It's also the only way that's widely endorsed by advocates for health and safety, and it's the only way proven by history to last safely. This bill wisely coordinates its effective date with neighboring states.

Please support this bill as introduced and ditch Daylight Saving Time. Thank you.

Sincerely,

Jonathan Cahill, MD
