

Testimony in support of S2181: Office of State Fire Marshal

Barbara Walsh, 62 Frederick Street, Warwick, RI 02888

Date of Hearing: March 25, 2026

To: Chair Felag and the Honorable Members of the Senate Special legislation and Veterans' Affairs Committee

Please support S2181. It is a sensible bill which would assist firefighters in responding to house/car fires which require different interventions for EV's and hybrids when lithium fires occur. This would enhance public safety and would not be onerous for any government agency.
